- 9 functions of memory
- Low noise
- Dedicated solutions

HIGH POWER LED

World's First!

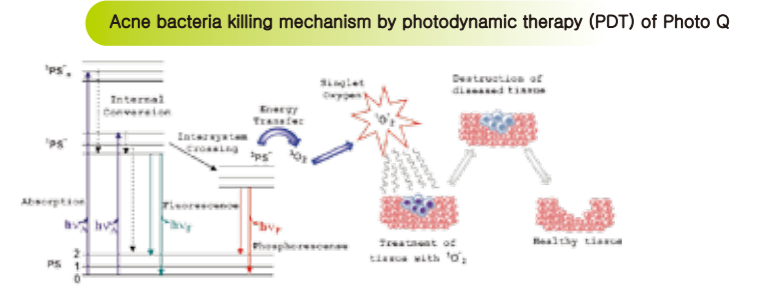

LPL Solutions

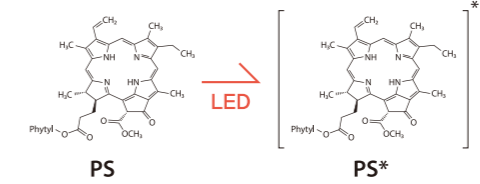

High power 3 in 1 system

PDT Gel Photo-Q

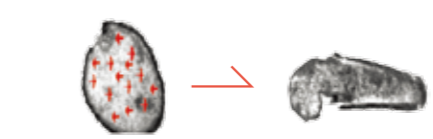

The high-energy of chlorophyll activated by LED kills acne and releases from one's body.

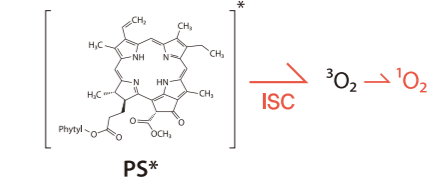

Step 1: Activation of the PS (chlorophyll) by LED

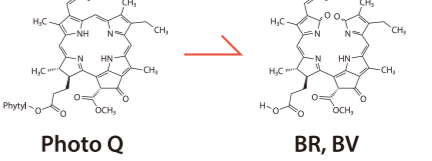

Step 3: Acne is attacked and killed by the high energy 1O2

Step 2: Activated chlorophyll transforms to the energy of oxygen

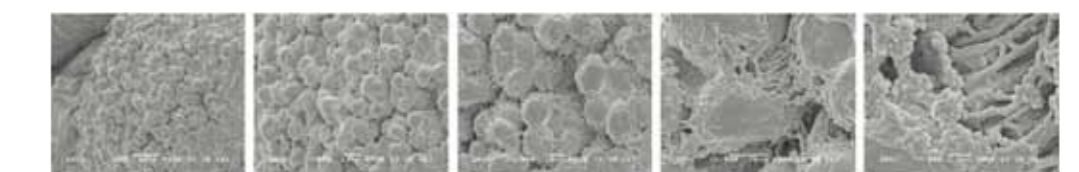

Step 4: Release of chlorophyll from one's body

Hydro Regen for Rejuvenation

The stem cell ingredients, that are extracted from orchid, tomato and rice and cultured, improve the skin's resilience after the medical treatment, helps rapid regeneration by supplying growth factors to red and damaged skin, and soothes the skin comfortably with adequate moisture supplies.
